Empirical Evaluation of Grounded Multi-Page Document Extraction Under Schema and Visual Constraints

Authors: Dr. Aris Setiawan, Dr. Elena Vance, and M. K. Pratama — Institute for Applied Document Intelligence

1. Research Study Overview (Preset Case: Research PDF A)

Stated Research Objective: The primary objective of this study is to evaluate extraction recall, semantic grounding precision, and state classification accuracy across multi-page enterprise financial filings and clinical intake records. These findings apply strictly to digital-native PDFs and flatbed scans captured at 150 to 300 DPI; the stated methodology explicitly excludes unconstrained handwritten cursive notes and degraded thermal receipts below 100 DPI.

Study Population and Dataset: The evaluation corpus comprises exactly 1,450 multi-page corporate regulatory filings (spanning 26,100 pages) and 620 standardized clinical and tax intake forms collected across 14 regional processing centers between January 2023 and December 2024. Note that the external *Funding Grant Identifier* and *Institutional Review Board (IRB) Expiration Date* are archived in a separate administrative supplement and are omitted from this report.

Main Reported Findings and Adversarial Entity-Period Comparisons: Across all evaluated benchmarks, windowed 3-page hybrid extraction achieved a mean extraction recall of 93.8% (±1.4% at 95% confidence) compared to 87.2% (±2.1%) for single-request full-document processing when tables crossed page boundaries. Furthermore, deterministic source-quote verification reduced ungrounded numeric hallucinations from 6.4% to 0.8% on multi-entity financial statements.

To benchmark contextual disambiguation across identical numeric values in corporate disclosures, the study audited four reference issuers with overlapping figures. Specifically, **Acme Corp** reported annual operating revenue of **10 million USD** in fiscal year **2024**, compared to **8.4 million USD** in fiscal year **2023**. Conversely, **Beta Holdings** recorded annual operating revenue of **10 million USD** in fiscal year **2023**, which subsequently increased to **12.5 million USD** in fiscal year **2024**. In the healthcare vertical, **Gamma Diagnostics** reported net research expenditure of **10 million EUR** in fiscal year **2024**, while its capital equipment depreciation totaled **10 million JPY** in the same period. All multi-line hyphenated terms such as micro-calcification and post-normalization were verified against character-level span offsets.

2. Hierarchical & Cross-Page Data Tables (Preset Case: Research PDF B)

Table 1: Multi-Level Hierarchical Financial & Operational Performance by Subsidiary (FY 2023 vs. FY 2024)

Subsidiary Entity	Division Code	Operating Revenue (Million USD)		Operating Margin (%)		Audit Verification State
		FY 2023	FY 2024	FY 2023	FY 2024	
Acme Corp (North America)	ACM-NA	8.4	10.0	14.5%	16.2%	Verified Audited
Beta Holdings (EMEA)	BET-EU	10.0	12.5	16.2%	18.0%	Verified Audited
Delta Logistics (APAC)	DLT-AP	12.5	10.0	11.0%	14.5%	Provisional Review
Omega Energy Systems	OMG-EN	19.8	22.4	-3.2%	4.1%	Restated Filing

3. Calibrated Chart Figure: Printed Labels vs. Visual Estimates

Figure 1: Quarterly Extraction Throughput and Error Rate by Pipeline Strategy (2024)

X-Axis: Processing Throughput in Pages per Minute (Scale: 0 to 100 pages/min) · Y-Axis: Quarter & Pipeline Series

0 20 40 60 80 100 (pages/min)

Quarter & Series	Calibrated Visual Bar (0–100 pages/min scale)	Printed Chart Label / Note
Q1 2024 · Native PDF		**64.0 pages/min** (Printed Label)
Q1 2024 · Windowed 3-Pg		*No printed value — estimate from bar*
Q2 2024 · Native PDF		**72.5 pages/min** (Printed Label)
Q2 2024 · Windowed 3-Pg		*No printed value — estimate from bar*
Q3 2024 · Native PDF		*No printed value — estimate from bar*
Q3 2024 · Windowed 3-Pg		**75.0 pages/min** (Printed Label)
Q4 2024 · Sensor Log		Unreadable chart region (corrupted ink)

4. Cross-Page Longitudinal Benchmark Table (Continuation Test)

Table 2: Regional Processing Center Batch Telemetry (Rows Continue Across Page Boundary)

Center ID	Location	Documents Evaluated	Mean Latency (sec)	Citation Match (%)	Operational Status
CTR-01	Jakarta Central	180	4.2	98.5%	Complete
CTR-02	Singapore South	145	3.8	99.1%	Complete
CTR-03	Tokyo Chiyoda	160	4.5	97.4%	Complete
CTR-04	Sydney Harbour	110	4.1	96.8%	Complete
CTR-05	Seoul Gangnam	130	4.9	95.2%	Complete
CTR-06	Bengaluru Tech Park	125	5.1	94.0%	Partial Retry

CTR-13	San Francisco Soma	55	3.6	98.9%	Complete
CTR-14	Sao Paulo Paulista	40	5.4	93.5%	Partial Retry

Table 3: Unrelated Adjacent Hardware Allocation Summary (Must Remain Separate From Table 2)

Worker Node Tier	CPU Cores	Memory Limit (GB)	Max Concurrent PDFs
Standard Container Node	4	8.0	2
High-Memory Worker Node	8	16.0	6

5. Regulatory & Compliance Intake Form (Presets: Form Image A & B)

Part 5A: Labeled Form Fields (Observed, Blank, Unreadable, and Ambiguous States)

Field Label	Recorded Field Entry / Value
Filing Organization Name	`PT Nusantara Medika Teknologi`
Tax Registration Number (NPWP)	`01.482.991.4-054.000`
Filing Effective Date (YYYY-MM-DD)	`2026-10-15`
Authorized Indemnity Cap (USD)	`250,000 USD`
Maximum Batch Payload Limit (MB)	`25.0 MB`

Field Label	Recorded Field Entry / Value
Secondary Backup Custodian Name	
Prior Settlement Reference Code	
Microfilm Stamp Serial Number	`▓▓▒ SMUDGED INK STAMP #??9 ▒▓▓`
Applicable Fiscal Tax Year	`2023 / 2024 [hand-corrected overwrite; both digits circled]`

Part 5B: Grouped Checkboxes & Radio Options (Identical Option Names Across Groups)

Option Group Label	Option Name	Visual Mark	Inspector Note
Group 1: Document Security Tier	Standard	**[X]**	Clearly checked
	Expedited	**[ ]**	Unchecked box
	Restricted	**[ ]**	Unchecked box
Group 2: Audit Clearance Protocol	Standard	**[ ]**	Unchecked box
	Expedited	**[X]**	Clearly checked
	Restricted	**[?/#]**	Ambiguous mark (crossed out then half-ticked)
Group 3: Local Archival Consent	Yes	**(●)**	Selected radio option
	No	**( )**	Unselected radio option
Group 4: External Cloud Redaction Waiver	Yes	**( )**	Unselected radio option
	No	**(●)**	Selected radio option

6. Multi-Window Boundary Stress Test: Longitudinal Entity Ledger (Pages 3–6)

Window Boundary Verification Protocol (Batch Boundary 1: Pages 3 to 4): In a 3-page windowed extraction pipeline, the first processing window concludes at the bottom of Page 3 and the second window initiates at the top of Page 4. Table 4 below is intentionally positioned and sized to span across the Page 3/4 boundary and continue onto Page 5, enabling deterministic verification of `mayContinue` hints, column path preservation, and duplicate row suppression when adjacent pages are re-queried.

Cross-Page Narrative Continuity & Hyphenation Check: During longitudinal auditing of multi-jurisdictional subsidiaries, auditors observed that sovereign-backed infrastructure bonds exhibited counter-cyclical resilience across emerging markets. Specifically, **Vertex Global Ltd** reported audited free cash flow of **45.0 million USD** in fiscal year **2024** (up from **38.5 million USD** in **2023**), whereas **Zenith Maritime Corp** reported audited free cash flow of **45.0 million USD** in fiscal year **2023** (declining to **41.2 million USD** in **2024**). Any extraction pipeline that confuses the 2023 and 2024 columns or swaps Vertex Global Ltd with Zenith Maritime Corp must be flagged with `CONTEXT_MISMATCH`.

Table 4: Global Subsidiary Capital Adequacy, Risk-Weighted Assets, and Tier-1 Ratios (FY 2023 – FY 2024)

Entity ID	Legal Subsidiary Name	Jurisdiction	Risk-Weighted Assets (Million USD)		Tier-1 Capital Ratio (%)		Regulatory Status

7. Clinical & Laboratory Biomarker Telemetry (Pages 6–9 · Batch Boundary 2)

Clinical Cohort Methodology & Qualification Scope: This section evaluates automated extraction of high-density clinical biomarker panels across 14 regional reference laboratories. All numeric reference intervals apply strictly to fasting adult venous plasma specimens analyzed within 4 hours of venipuncture; hemolyzed specimens and pediatric heel-stick capillary samples are explicitly excluded from the reference cohort.

Adversarial Unit & Period Disambiguation in Clinical Panels: In Cohort Study Alpha, **Site Lab North** recorded a mean serum creatinine concentration of **1.15 mg/dL** in **Q1 2024** and **0.98 mg/dL** in **Q2 2024**. Conversely, **Site Lab South** recorded a mean serum creatinine concentration of **0.98 mg/dL** in **Q1 2024** and **1.15 mg/dL** in **Q2 2024**. Simultaneously, **Site Lab East** reported whole-blood lactate of **1.15 mmol/L** in **Q1 2024**. Extracting 1.15 without preserving its unit (`mg/dL` vs. `mmol/L`) or swapping Q1 and Q2 constitutes a critical grounding error.

Figure 2: Mean Assay Turnaround Time by Diagnostic Modality (2024 Calibration Curve)

X-Axis: Mean Assay Turnaround Time in Minutes (Scale: 0 to 100 minutes) · Y-Axis: Diagnostic Modality

Diagnostic Modality	Calibrated Visual Bar (0–100 minutes scale)	Printed Chart Label / Note
STAT Blood Gas Panel		**18.0 minutes** (Printed Label)
Routine Electrolyte Panel		*No printed value — estimate from bar*
Troponin-I High Sensitivity		**44.5 minutes** (Printed Label)
Automated Coagulation Screen		*No printed value — estimate from bar*
Comprehensive Metabolic		**68.0 minutes** (Printed Label)
PCR Respiratory Multiplex		*No printed value — estimate from bar*

Table 5: Multi-Center Clinical Biomarker Quality Control Registry (Spans Page 6 to Page 8 Boundary)

Specimen ID	Assay Analyte	Baseline Value	Follow-Up Value	Reporting Unit	CV (%)	QC Disposition
CLN-201	Fasting Plasma Glucose	94.0	98.5	mg/dL	2.1%	Accepted

11. Customs & Hazardous Material Declaration Form (Page 15 · Form Preset Case D)

Customs Declaration Field	Recorded Entry / Inspection State
Master Bill of Lading Number	`MBL-SIN-ROT-2026-9042`
UN Dangerous Goods Classification	`UN 3373 · Biological Substance, Category B`
Dry Ice Net Weight (kg)	`42.5 kg`
Secondary Customs Broker License	
Quarantine Fumigation Certificate ID	
Port Inspector Thermal Seal Stamp	`▓▓▒ THERMAL LABEL FADED IN TRANSIT ▒▓▓`
Container Demurrage Liability Tier	`Tier A / Tier B [both boxes ticked and initialed]`

12. Ground-Truth Verification Matrix & Boundary 5 Registry (Pages 15–18)

Final Window Boundary Verification (Batch Boundary 5: Pages 15 to 16): Table 8 below initiates on Page 15, crosses the boundary into Window 6 (Page 16), and continues through Page 18. This final ledger provides deterministic verification items for end-to-end page coverage (`18/18 pages processed`), citation span matching, and negative-scope filtering.

Table 8: Master Audit Verification Registry Across All 18 Benchmark Pages (Spans Page 15 to Page 18)

Audit Item ID	Target Module	Expected Value State	Expected Evidence Status	Reference Metric	Verification Rule
AUD-501	Title & Authors	observed	source_located	100.0%	Exact span match on Page 1
AUD-502	Research Objective	observed	source_located	100.0%	Preserve DPI qualification
AUD-503	Funding Grant ID	not_located	source_located	0.0%	Explicitly omitted in text
AUD-504	IRB Expiration Date	not_located	source_located	0.0%	Explicitly omitted in text
AUD-505	Acme Corp 2024 Rev	observed	source_located	10.0	Unit: million USD · FY 2024
